C3 WELCOMES NEW FAMILY MEMBERS!!

Terelle Coley - QP, IIH Team 5

Mike Bomar - LCSW, C3 OPT

ANNOUNCEMENT!!

BEGINNING JANUARY 1, 2013:

Implementation of new assessment tools

What are the LOCUS and CALOCUS?

- **LOCUS** = Level of Care Utilization System (18 years and older)
- **CALOCUS** = Child & Adolescent Level of Care Utilization System (ages 5 to 17)
- The **LOCUS** and **CALOCUS** are assessments and placement instruments developed by the American Association of Community Psychiatrists, AACP & the American Academy of Child & Adolescent Psychiatry AACAP. As of January 2013, these assessment tools will be used to assess level of care needs for mental health consumers and will be required for all Service Authorization Requests (SAR).
- The **LOCUS** and **CALOCUS** will be used statewide and provide consistency in determining consumer levels of care. These tools provide a common language and set of standards with which to make clinical judgments and recommendations based on the most appropriate and medically necessary level of care.

January BIRTHDAYS!!

Danae Diller - January 1

Maly Por - January 21

Kiesha Childress - January 30
